

PATCH TEST TRAINING DAY 2022

Friday 29 April 2022, 8:30AM – 4:30PM

Adelaide Convention Centre

The team from the Occupational Dermatology Research and Education Centre at the Skin Health Institute present the 2022 Patch Test Training Day, to be held at the Adelaide Convention Centre as part of the ASM.

Topics to be presented:

- The basics: Making a diagnosis and SHI top ten allergens for 2021
- Allergy to devices, including glucose sensors, stoma products, hearing aids, glasses, IUDs
- Tattoo reactions
- Allergic reactions to implants: an update
- Our most common questions answered
- A case that has taught me something
- Pesky allergens– limonene, linalool, sodium metabisulphite, benzalkonium chloride
- Foot dermatitis: what's new and how to test
- Research roundup from ODREC
- What's new internationally– including European hand eczema guidelines

The Practical side:

- CABA: how to order tests and using PatchCams
- Testing patient samples and work products
- Patch application and removal
- ROATs: how to do them
- Tape allergy and tape stripping
