

12TH ANNUAL PATCH TEST TRAINING DAY

FRIDAY 30 MAY 2025

9:00AM - 4:00PM

BRISBANE CONFERENCE CENTRE

The 2025 Patch Test Training Day will be held just prior to the College Annual Scientific Meeting on Friday 30 May 2025 in Brisbane.

This year's event will feature various topics including:

- Making a diagnosis
- Update from the European Society of Contact Dermatitis, Dresden 2024
- Counselling patients about patch test results
- Occupational urticaria
- Allergy to metal implants
- Allergens and series changes: an update
- Patch testing practical session including testing own samples
- Atopic dermatitis and irritant reactions to benzalkonium chloride

Interesting cases to be discussed:

- Systemic allergic contact dermatitis to cobalt from a knee replacement
- Iodine sensitivity
- Persistent eyelid rash in a Workcover patient
- Latex pillow- an interesting case
- Tape allergy
- A new epidemic in healthcare workers? More on rubber accelerators
- Allergic contact dermatitis to eyedrops
- Topical steroid allergy
- Acrylic nail allergy
- A rash following orthopaedic surgery

**REGISTRATIONS FOR THIS EVENT ARE
THROUGH THE [ACD ASM WEBSITE](#)**

For more information, please contact
Amanda Palmer via email:
apalmer@occderm.asn.au or via
phone: 03 9623 9402

**We encourage all CABA users to join
this 2025 event, as it will address
many common patch testing
questions and provide updates on
the latest patch testing guidance.**
